

# Hotspot Lending Program

## GETTING STARTED GUIDE

### Powering On the Hotspot

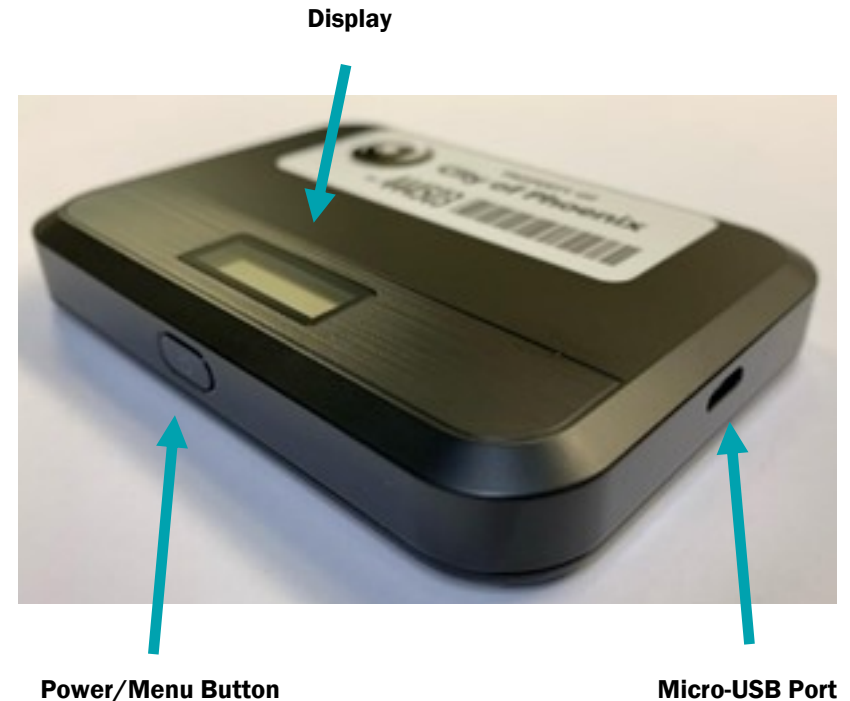

- To get started, place the hotspot on a table or other flat surface.
- Locate the supplied power cord and plug the micro-USB end into the micro-USB Port.
- Plug the power cord into a power outlet.
- A battery symbol will appear on the small display screen, showing that the hotspot is charging.

### Displaying the Hotspot Wi-Fi Network Name and Password

- The Power/Menu button is located on the front side of the hotspot. Push and hold the button for about 3 seconds to turn on the hotspot. It will display a *Welcome* message.
- Push the button a second time for more information about the hotspot.
- Push the button a third time to display the name of the Wi-Fi network.
- Push the button a fourth time to display the Password.  
(This information is also available on the back of the hotspot.)

### Connecting the Hotspot to a Device

- On your device, navigate to the Wi-Fi settings and click on the name of the Wi-Fi network.
- The hotspot will connect and give you online access.
- When you're done using the hotspot, push and hold the Power/Menu button. The hotspot will display a *Goodbye* message and turn off.
