Seed Library

Growing Instructions

Dill – Hera

Planting:

- Sow seeds **Oct–Nov** or **Feb–Mar**.
- Plant ¼" deep; directsow for best results.

Sun:

- Full sun; **light afternoon shade** helps in warm spells.

Water:

- Keep soil evenly moist; avoid overwatering.

Soil:

- Well-drained soil enriched with compost.

Care:

- Thin to **8–10" apart.**
- Tall stems may need light support in windy areas.

Harvest:

- Snip leaves as needed once plants reach **6–8" tall**.
- Harvest heads early if temps rise to prevent bolting.
